Help manage and keep track of specific items needed for the orchestra. I also check and return instruments to those who need their instrument. I learned important organization and memorization skills in this position.

Group Captain || Vietnamese Eucharistic Youth Movement (Thiếu Nhi Thánh thể) 2014-2023

I was designated a group of people to look over and teach—I was responsible for their actions and I was to help clarify anything we were learning. I got leadership experience and learned important skills—how to effectively communicate with other peers, lead through a problem and encourage team collaboration.
